I am an aspiring Full Stack Developer with experience in HTML, CSS, JavaScript, React, Node.js, and MongoDB. I aim to apply my skills to build scalable, user-friendly web applications, contribute to team projects, and grow my expertise in full-stack development.

EXPERIENCE

Frontend Intern   Butwal, Nepal

Temple Technology   Jul, 2023 - May, 2024

- Developed and maintained responsive user interfaces using React.js and modern JavaScript (ES6+). .
- Integrated RESTful APIs to display dynamic data and handled state management using React Hooks and Context API.
- Improved performance by optimizing component rendering and applying lazy loading and memoization techniques.

EDUCATION

Bachelor in Computer Science & Information Technology   Kathmandu

Trinity International College   Nov, 2023 - Present

PROJECTS

Educonsultancy (React, Node, Express, MongoDB)

A full-stack web platform connecting students with mentors for affordable, transparent abroad-study guidance.
- Secure auth with Email + OAuth, and Role-based Dashboards (Admin/User)
- University search, scholarships, visa guides, and SAT prep with lesson/test builders
- Live chat (Socket.io), Stripe payments, and file management with Cloudinary
- Admin panel with full CRUD control, notifications, blogs, and FAQs
